The safest dissections start here

Every specimen in this catalog has been prepared with **NASCOGuard®** — our nontoxic, low-odor humectant fluid that exceeds OSHA standards.

99.7% formaldehyde free

Our skilled technicians remove the original formaldehyde fixative, then perfuse the specimens with propylene glycol to inhibit decay, ensure moist specimens, and lower the vapor pressure of any residual formaldehyde.

Guaranteed to last for years

NASCOGuard® specimens will remain usable for years when stored in the original sealed packaging, so you can be confident of consistent results.

Three levels of color coding

Key structures are injected with colored latex for clear and visible differentiation of organs and structures, providing an enhanced learning experience.

Single injection

- Arteries shown in red

Double injection

- Arteries shown in red
- Veins shown in blue

Triple injection

- Arteries shown in red
- Veins shown in blue
- Hepatic portal system in yellow

200+ premium-quality specimens

We obtain our specimens through professional collectors, by-products of stockyards, and the food industry. We're licensed and/or governed by the U.S. Fish and Wildlife Service, the U.S. and Wisconsin Departments of Agriculture, and the Wisconsin Department of Natural Resources.

Our renewed commitment to you

For more than 80 years, Nasco Education has supported the important work of educators — and we're not stopping now!

Supply chain issues and the technical limitations of our shipping systems impacted some of our customers in 2022, and that's unacceptable to us. We've retooled our systems so you can continue to receive the excellent service you expect from us this school year. Thank you for your patience as we worked through these challenges and for your continued loyalty.

How to store and dispose of your NASCOGuard® specimens

When your specimens arrive, keep them at room temperature and in the shipping bag/container they came in until you are ready to use them. Between classroom sessions, return specimens to a tightly closed plastic bag or airtight container to prevent them from drying out. If specimens begin to dry out over the course of an extended dissection, remoisten them with NASCOGuard® Humectant Fluid only (see right).

Specimens are biodegradable, so once the dissection is complete, they can be buried in an approved sanitary landfill or incinerated. Ambient fluids may be safely disposed via city sewers.

A. "Try It" Frog Dissection Kit

A great way of introducing students to the exploration of internal and external anatomy of an amphibian. This commonly used dissection amphibian is easy to handle, easy to identify organs and structures, and works well with students of various ages. Safe, easy-to-use kit contains a 4"-4½" frog, dissection tools, plastic anatomy apron, illustrated guide, and latex-free gloves.

LS03850 – \$22.95 10+ \$20.65

B. Frog Dissection Mat

Allows the student to follow the directions for a complete dissection without the worry of damaging books or paper. A complete frog dissection is printed directly on this 9¾" x 16" polyvinyl mat. Resistant to spills, it is easily cleaned with a sponge or paper towel. More durable than laminated paper, this mat will last for many lab sessions.

SB32577 – \$10.95

C. Frog Dissection Chart

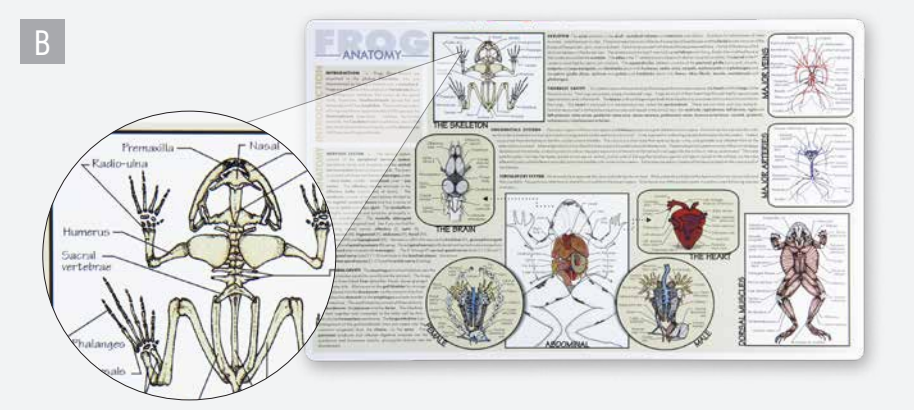

Without adequate guides, students often need to do two or more costly dissections. This chart has been proven to substantially reduce these costs because students accomplish objectives with just one dissection. Chart provides large, beautiful images of living specimens. Also supplies key information and helpful review. Printed on both sides of laminated card stock. 8½" x 11".

SB51690 – \$10.95

D. Nasco Frog Dissection Guide Set

Well-illustrated guide is intended to provide step-by-step instructions for the dissection of this common laboratory specimen. Classroom tested and proven to assist the student with self-guided instruction. Set of 15.

SB10258 – \$15.95

Nasco Advanced Owl Pellet Kit

Students learn about energy transfer through food chains while observing skeletal features that identify prey animals consumed. Kit includes 15 dried and fumigated owl pellets wrapped in aluminum, probes, vole chart, 15 student worksheets, and teacher's guide. Illustrations help identify common prey species.

B. Pig Dissection Mat

Allow students to follow the directions for a dissection without the worry of damaging books or paper. A complete pig dissection is printed directly on this 9¾" x 16" polyvinyl mat. It is resistant to spills and is easily cleaned with a sponge or paper towel.

SB32578 — \$10.95

C. Fetal Pig Dissection Chart

Six photographic images (3 on each side) portray an enlarged view of abdominal and thoracic regions. Important parts are numbered and labeled. Both 8½" x 11" sheets come in protective sleeve and with prepunched binder holes.

SB50649 — \$10.95

Fetal Pig Sagittal Section

Sagittal section of an 11"-12" artery-injected fetal pig for observing internal organs and vessels before starting dissection. Great demonstration tool in clear plastic bag to use as a demonstration model. Can be removed for dissection. Teacher's guide included.

LEARN ABOUT HUMAN ANATOMY WITH PIG ORGANS

Similarities to human body systems and structures make pig organs a top choice for dissection

Pig Organs

An excellent way to closely study organs that are remarkably similar to a human's.

Product No.	Description	Each	10+
LS02530	Pig Heart	\$9.55	\$8.59
LS03808	Pig Heart, Double Injected, Arteries (Red), Veins (Blue)	\$14.55	\$13.09
LS03569	Pig Heart in Pericardium	\$17.95	\$16.15
LS02532	Pig Eye	\$1.95	\$1.75
LS03352	Pig Kidney, Plain	\$6.65	\$5.98

Pig Organ Set

Get up close and personal with organs that are very similar to those of a human with this popular combination of preserved pig organs in a convenient storage box. Includes reclosable storage bag. Set includes one each of the four-chamber heart (4"-5", LS02530), eye (LS02532), kidney (plain, LS03352), and ovary (LS03490). Dissection guides for each organ are included.

LS03496 — \$20.95

Nasco Dried Swine Lungs

Swine lungs are preserved, inflated to full size, and dried to produce a real odorless specimen. Lungs, once dried, are the consistency of Styrofoam™. Slice thin sections of specimen to observe alveoli and other structures under binocular microscope. Teacher guide included.

LS01956 — \$50.95

Nasco Dried Lung Section. Perfect for observing the internal structures of the lung without having to slice a whole lung.

7 Specimen – Large (10 of Each)

- 8"-10" earthworm
- 3½"-5" crayfish
- 4"-5" clam
- 5"-6" sea star
- 7"+ perch
- 3" grass frog
- Lubber grass-hopper

LS03604 Set of 70 Specimens – \$120.75

7 Specimen – Medium (10 of Each)

- 6"-8" earthworm
- 3"-4" crayfish
- 3"-4" clam
- 3"-5" sea star
- 5"-7" perch
- 3" grass frog
- Lubber grass-hopper

LS03603 Set of 70 Specimens – \$99.75

Zoology Survey Sets
Preserved specimens are individually packaged and shipped moist in vapor barrier plastic bags. Vacu-Pac process eliminates over 50% of shipping weight incurred with using fluid in breakable jars, as well as offering extended shelf life of several years. Small specimens are in a glass vial within the Vacu-Pac plastic. Reclosable storage bag included with each set.

Cause of Death Autopsy Kit

Follow the steps a medical examiner would take as students conduct an authentic forensic autopsy. A complete activity guide will take your students through step-by-step instructions of the medical examiner process. The three fetal pigs represent victims with stab wounds, gunshot wounds, or a broken back. Use the scientific method in real-life applications as your students investigate the demise of these pigs. Kit includes three 10"-13" pigs, suture needle, nylon thread, data cards, bags, and a complete activity guide.
LS03825 – \$155.00
Refill Kit. Three pigs and data cards.
LS03825(CB) – \$100.00

Nasco Vertebrate Organ Comparison Kit
The ideal way to compare the anatomy of common vertebrates, including a sparrow, bullfrog, rat, fish, and turtle. The activity guide will take you through a step-by-step, hands-on comparison of external and internal anatomical structure. Containers are provided for storage of extracted organs.
LS03806 – \$62.95

"Try It" Dissection Kits

Introduce students to the exploration of internal and external anatomy of a specimen. Each kit is equipped with a preserved specimen, dissection tools, a plastic apron, an illustrated guide, and latex-free gloves. Dissection tray not included. Kits are a great option for take-home lessons in distance learning situations or for in-class labs when sharing of supplies is not allowed.

Nasco Hands-On Invertebrate Study Set

By Gari Walz.

Allows students an opportunity to learn about the classification of organisms. Set includes a comprehensive teacher's guide, 15 illustrated student guides with activity sheets, questions and answers for classroom review, an illustrated guide representing one or more animals from each of the invertebrate phyla (Porifera, Coelenterata, Platyhelminthes, Nematoda, Annelida, Mollusca, Echinodermata, Cnidaria, and Arthropoda), 13 preserved specimens in individually labeled jars that correspond to included key sheet, and 15 handheld magnifiers.

LS03736 — \$114.95

Set of Replacement Specimens. Includes at least one representative member of the phyla Porifera, Cnidaria, Platyhelminthes, Mollusca, Annelida, Arthropoda, and Echinodermata.

LS03716 — \$66.15

DISPLAYS & SURVEY SETS

Animal Survey Set A

Set consists of at least one representative member from each of the following phyla: Porifera, Platyhelminthes, Cnidaria, Echinodermata, Annelida, Mollusca, Arthropoda, and Chordata.

LS03547 — \$152.25

Animal Survey Set B

Set consists of at least one representative member from each of the following phyla: Chordata, Porifera, Mollusca, Arthropoda, Euarthropoda, and Echinodermata.

LS03548 — \$155.00

Combination Survey Set

Includes all specimens in sets A and B. This combination shows the wide range of variation found throughout the animal kingdom.

LS03549 — \$290.00

Animal Survey Set A

Animal Survey Set B

Arthropod Survey Set

Set consists of at least one representative member of the following classes: Crustacea, Chilopoda, Diplopoda, Arachnida, and Insecta.

LS03613 — \$73.50

Basic Animal Kingdom Survey Set

This set consists of at least one representative member of the following major phyla: Porifera, Coelenterata, Brachiopoda, Ctenophora, Platyhelminthes, Nematoda, Mollusca, Annelida, Arthropoda, Echinodermata, and Chordata.

LS03550 — \$105.00

INTERACTIVE MODELS

Don't just tell them, show them! With these accurate models, students will be able to see, touch, and experience anatomical structures in a true-to-life way. They may just be inspired to explore career paths in medicine, healthcare, research, and more.

Moveable joint shows how structures interact

Natural Skeletal Structures

A. Elbow Joint. Front elbow joint of a cow with articulating surfaces, synovial joint cavity, ligaments, bursae, cartilage, bones, muscle origin, muscle insertion, and tendons easily identified. Movable joint preserved in Nasco's exclusive Bio-Flex process. Includes dissection guide. **LS03566 – \$68.95**

LEARN MORE ABOUT BONES

The included dissection guide is an informative resource for students examining skeletal structures in the classroom

Sectioned to show the internal structure of long bones

B. Longitudinal Section of Long Bone. Front leg bone of a cow sectioned longitudinally to allow viewing of internal structure. Periosteum, solid bone layer, spongy bone, medullary canal, yellow bone marrow, red bone marrow, and epiphyseal line are evident. Head of long bone shows articulating surface of hyaline cartilage. Includes dissection guide. **LS03567 – \$8.75**

C. Cross Section of Long Bone. Front leg bone of a cow transversely sectioned to illustrate concentric rings, haversian canal, yellow bone marrow, and periosteum membrane. Bone is sectioned ¾" thick. 10 per package. Includes dissection guide. **LS03568 – \$11.55**

Nasco Inflation Lungs Comparison Kit with Teacher Instructional DVD
Inflation lungs provide an impressive and unforgettable hands-on demonstration by using real swine lungs. The inflation lung comparison kit is designed to demonstrate the effects of prolonged smoking, as well as compare the differences in color and texture of a simulated smoker's lung and a healthy lung. Nasco uses a nontoxic solution that retains the texture and elasticity of fresh lungs, to preserve them. The smoker's lungs have a palpable internal tumor and a physical simulated external tumor to encourage students to feel the texture of real lung tissue and its variations. This kit includes an inflation rack assembly with tray, an air pump, a simulated healthy and smoker's lung, a dried cross section of a lung, an instructional DVD, a teacher's guide, and storage containers. The guide provides a detailed illustration of internal/external anatomy and supplemental information about lung cancer, other smoking related diseases, and air pollutants as well as guidelines for handling, use and storage of the reusable swine lungs. **⚠ CHOKING HAZARD (I).** Not for under 3 yrs.
LS03769 – \$400.00
LS03768 Inflation Lungs Comparison Kit Only – **\$400.00**

D. Nasco Healthy Inflation Lungs Kit

Students can see and learn how lungs work by inflating and deflating them with a pump. Includes an inflation rack and tray, air pump, a pair of reusable, inflation swine lungs, a section of dried swine lung, a teacher's guide, and a container for storing the lungs. **LS03765 – \$255.00**
LS03764 Nasco Inflation Healthy Lungs Only – **\$175.00**

E. Nasco Dual Lungs Comparison Kit

Interconnected airway system with dual trays, air pump, pair of normal inflation swine lungs, pair of simulated smoker's lungs, dried swine lung section, and 2 guides. **LS03802 – \$450.00**
Dual Lung Rack Update Kit. Converts inflation lung comparison kit to dual lung rack. **LS03805 – \$75.00**

F. Nasco Smoker's Lungs Demonstration Kit

Realistically stained inflation swine lungs provide an unforgettable demonstration of prolonged smoking. Simulated internal and external tumors on each lung remind that smoking is a known cause of lung cancer. Kit includes a teacher's guide, inflation rack and tray, air pump, dried cross section of unstained lung, and simulated smoker's lung. **LS03767 – \$262.00**
LS03766 Replacement Simulated Smoker's Lungs Only – **\$175.00**

Nasco Lungs Maintenance Kit
Includes necessary materials plus special instructions for prolonging the life of your inflation lungs. **LS03738 – \$38.50**
SB29032 Bellows pump – **\$25.95**

EQUIPMENT, INSTRUMENTS & ACCESSORIES

You’ve got your specimens, and now you need the tools! Supply students with a full assortment of high-quality instruments. From safety equipment to full dissection kits, Nasco Education has all your and your students’ needs covered.

Classroom Dissection Instrument Sets

A set of quality dissection instruments for the entire classroom. Instruments come in a sorting tray. Two different sets are available to choose from. For 30 students working in pairs.

Stainless Steel Grade Set A consists of:

- (15) 4½" stainless steel dissecting scissors (SA01146)
- (15) No. 4 stainless steel surgeon's handles (SB07833)
- (20) No. 22 scalpel blades (SB09348)
- (15) 4½" fine-point, stainless steel forceps (SB12629)
- (15) Straight steel teasing needles (SB10275)
- (15) Angular chrome probe and seekers (SB07838)
- (1) Box of 2" dissecting pins (SA01463)
- (1) Instrument sorting tray (SB25286)

SB15428 — \$170.00

Chrome Grade Set B consists of:

- (15) 4½" chrome dissecting scissors (SA01145)
- (15) Chrome safety-lok scalpels. Includes No. 22, scalpel blades (SA01177)
- (15) 4½" fine-point, chrome forceps (SA01134)
- (15) Straight wood handle teasing needles (SB15414)
- (15) Bent plastic handle teasing needles (SB15415)
- (1) Box of 2" dissecting pins (SA01463)
- (1) Instrument sorting tray (SB25286)

EQUIPMENT, INSTRUMENTS & ACCESSORIES

Biology Dissecting Kit with Case

No. 4 stainless steel scalpel handle, 1½" stainless steel narrow blade scalpel, 5½" stainless steel sharp/sharp scissors, 4½" stainless steel straight iris scissors, 5½" stainless steel thumb forceps, 4½" chrome curved medium-point forceps, 6" chrome probe and seeker, 6" ruler, straight dissecting needle, bent dissecting needle, dropping pipette, 6 No. 22 scalpel blades, and vinyl case with compartments for 12 instruments.

SB10272 — \$22.95

Advanced Dissecting Kit

Zipper case with velvet-like lining and stainless steel instruments: No. 3 surgical handle with No. 10 replaceable blade (2 extra blades included), 1½" narrow blade scalpel, 5½" sharp/blunt operating scissors, 4½" straight iris scissors, 5½" thumb forceps, 4½" fine-point forceps, mall probe and seeker, and straight teasing needle.

SB12625 — \$20.25

General Biology Dissecting Kit

Single fold vinyl case with lining, No. 4 stainless steel surgical handle with No. 21 replaceable blade, 5½" stainless steel sharp/blunt scissors, 5" stainless steel thumb forceps, chrome mall probe and seeker, straight dissecting needle, pipette, and 6" ruler.

SB12624 — \$15.95

University Level Anatomy Dissecting Kit

Black vinyl, zippered case has red velvet inner lining with 10 loops for organization. Contains straight teasing needle, bent teasing needle, 4½" iris scissors, 4½" medium point forceps, cartilage knife, 1 x 2 teeth tissue forceps, 5½" surgical scissors, #3 scalpel handle, mall probe, #10 scalpel blades (pkg. of 10), 5" hemostatic forceps, and 6" ruler.

SB46659 — \$35.95

Basic Elementary Dissecting Kit

Single-fold vinyl case with lining, 6" chrome replacement blade scalpel, 4½" stainless steel dissecting scissors, 4½" chrome-plated forceps, straight dissecting needle, bent dissecting needle, pipette, and 6" ruler.

SA01127 — \$9.95

Biology Dissecting Kit

Double fold vinyl case with lining; 1½" stainless steel scalpel; 1½" stainless steel narrow blade scalpel; 5½" stainless steel sharp/blunt scissors; 4½" stainless steel iris scissors; 4½" chrome, straight, fine-point forceps; 4½" chrome, curved, fine-point forceps; 5" chrome, straight, blunt-point forceps; straight dissecting needle; bent dissecting needle; 6" chrome probe and seeker; and 6" ruler.

SA04449 — \$20.25

Large Animal Dissecting Kit

Canvas roll case with 2 pockets and adjustable loops to hold instruments; 6¼" stainless steel Pean hemostat; 5½" stainless steel Kelly hemostat; No. 3 stainless steel scalpel handle; No. 10 scalpel blades (6); No. 11 scalpel blades (6); 4½" stainless steel iris scissors; 5½" stainless steel operating scissors; 4½" chrome, straight, fine-point forceps; 5½" chrome, straight, medium-point forceps; 6" chrome probe and seeker 5¼" section lifter; metal, straight dissecting needles (2); 2½" double-prong flesh hooks; and 6" celluloid ruler.

SA01129 — \$34.95

United Scientific Dissection Kit

Set of 8 tools includes dissecting scissors, dissecting forceps, scalpel with replacement blade, straight teasing needle, 2 curved teasing needles, dropping pipet, vinyl ruler, and 6 T-pins. Includes a hard case for storage.

Nasco Dissection Pans

- High-density polyethylene pans:**
- Less expensive than aluminum
 - Will not rust, crack, or leak
 - Bottom retains shape — does not become rounded with use
 - Not as deep — easy to perform routine dissections
 - Designed to be used with Flex-Pads only, not with wax
 - Chemical resistant
 - Stackable for storage

Small Basic Dissecting Pan
Designed for grades with routine dissections using earthworms, crayfish, clams, grasshoppers, sea stars, perch, and grass frogs. Outside dimensions: 10" x 7".

Medium Standard Dissecting Pan
For general student use in dissection. Available in both tough, high-density polyethylene and durable, one-piece aluminum construction. Neither will rust, crack, or leak. Outside dimensions: 11½" x 7½".

Nasco Large Animal Dissection Tray
Designed for cats, rabbits, mink, and other large animals. Unbreakable, lightweight tray is chemical-resistant and has a skid-resistant bottom. Stack trays for storage. Clear plastic cover fits firmly over tray to prevent moisture loss and nestles for storage, but is not designed to stack with specimens inside.

Connect anatomy lessons to careers

Help students develop fundamental skills that can translate into future careers with high-quality training tools. With hands-on practice, students will gain real-world experience in your classroom.

Animals

Expand the study of animal science and healthcare in a hands-on way. For students interested in pursuing careers in veterinary sciences, simulation training will give them practice in giving animals the care they need.

Life/form® Canine IV Leg
A fully functional canine IV leg trainer at an affordable price. Represents the left foreleg of a medium-sized dog in the sternal recumbent position with two interchangeable sleeves — normal fur for routine blood draws and a "shaved" area for IV catheter insertion. Replaceable vein system demonstrates actual blood flashback. Great for bandaging and restraint/assistance practice as well. Ideal for veterinary schools and vet tech programs. Portable storage box with built-in IV pole, blood powder, syringe, IV catheter, and two fluid supply bags.
LF01016 — \$285.00

Vet Tech Surgical Instrument Kit with Identification Flash Cards
Learning to identify veterinary instruments is made easier when users can handle each instrument and compare action, weight, and feel. Includes 29 of the most common instruments with display case and flash cards. Care and handling instructions are also included. For more information, visit nascoeducation.com.
