INDIVIDUAL LEARNING
MATH KITS

Easy option for interventions, tutoring, and in-class, at-home, and after-school learning

Tried-and-true manipulatives, curated by grade level, give teachers flexibility and help students learn, no matter where they are. Each kit includes lesson guidance for teachers, tutors, or parents and outlines 60+ activities. It's easy to move between learning environments, since everything is in one bag — kids can just toss in their backpack and go!

Early Years Individual Learning Math Kit

Gr. PreK-K Students will be able to answer questions such as: Can you make a tile train that is longer than 5 tiles, but shorter than 9 tiles? Can you make this pattern? Can you make a square out of the blue rods? Kit includes color tiles, Rekenrek, wood pattern blocks, coin set, number line, linking cubes, geometric solids, ten frame with counters, hundreds board, deci rods, pentominoes set, and dice (dot and numbered). **NE30015 — \$32.95**

Primary Individual Learning Math Kit

Gr. 1-3 Students will be able to answer questions such as: What coin has the lowest value? What are all the different 2 number combinations to make 10, 20, 25? What 3D figures did you use to build your tower? Kit includes coins and bills set, base 10 set and mat, ten frame and counters, geometric solids set, Venn Diagram mat, deci rods, tangrams, wood pattern blocks, hundreds board, two-color counters, color tiles, linking cubes, dice (dot, numbered, and math symbol). **NE30016 — \$32.95**

NE30017

Junior Individual Learning Math Kit

Gr. 4-6 Students will be able to answer questions such as: Which has larger volume? Is there always more than one way to model a fraction? Using 24 tiles, how many rectangles can you make? Kit includes coins and bill set, base 10 set, geometric solids, Venn Diagram mat, deci rods, tangrams, protractor, wood pattern blocks, two-color counters, color tiles, linking cubes, and dice (dot, numbered, and math symbol). **NE30017 — \$32.95**

Intermediate Individual Learning Math Kit

Gr. 7-9 Students will be able to answer questions such as: What sum of three consecutive numbers in 63? How many rectangular prism structures can you make that have a height of 4 and a perimeter of 24 on the base? What type of triangle is this? Kit includes algebra tiles, pentominoes, tangrams, base 10 set, color tiles, two-color counters, linking cubes set, deci rods, protractor, geometric solids set, XY dry-erase board, dry-erase marker, and dice (dot, numbered, fraction, and math symbol). **NE30018 — \$32.95**

TB11561 — \$129.95

F. Bucket of Dice
Red, green, and white dice for all kinds of board games and probability activities. Bucket of 144 dice; $\frac{5}{8}$ " square. **CHOKING HAZARD (I).** Not for under 3 yrs..
TB15671 — \$20.50

G. Nasco Fraction Tiles Classroom Set
Gr. 4+ Teaches fraction comparisons. Tiles read $1, \frac{1}{2}, \frac{1}{3}, \frac{1}{4}, \frac{1}{5}, \frac{1}{6}, \frac{1}{8}, \frac{1}{10}$, and $\frac{1}{12}$. Includes 30 packages of fraction tiles with trays. Each package includes 51 fractions tiles in a plastic tray. All components come in a storage container. Lesson plan included. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB21928 — \$220.00

H. Cuisenaire® Plastic Rods
Classic rods are a staple in activities ranging from basic arithmetic to measurement to probability. Includes 2,220 plastic rods with storage container. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB22326 — \$332.95

I. Nasco Rekenrek Classroom Set
Gr. PreK+ Teaches basic math skills and aids in understanding early number concepts. Includes 30 student Rekenreks up to 20 with wood frames and one teacher demonstration counting frame with write-on/wipe-off panel. Lesson plan included. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB25686 — \$151.95

J. Nasco Plastic Square Color Tiles
Set of 2,000 color tiles (1" each) in 4 colors in a plastic storage container with teacher's guide. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB21925 — \$82.00

K. Nasco Plastic Pattern Blocks
Explore geometric forms and relationships, symmetry, congruence, and angle measurement. Consists of 2,000 pieces in 6 shapes and 6 colors ($\frac{1}{2}$ cm thick). Teacher's guide and lesson plan included. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB21920 — \$82.95

L. Nasco Algebra Tiles™ Classroom Set
Gr. 8+ Includes 30 Student Sets (each set includes a 35-piece, two-color set of Algebra Tiles™), a 70-piece transparent set of Algebra Tiles™, and instructional booklet, all in plastic storage tub. Includes lesson plan. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB17249 — \$93.00

M. Attribute Blocks Set
Gr. K-9 Each set contains 4 distinct and universal sets of attributes, 5 different shapes, 3 bright colors, 2 sizes, and 2 thicknesses. Large pieces average $2\frac{1}{2}$ " x $2\frac{1}{2}$ " and small pieces average $1\frac{1}{2}$ " x $1\frac{1}{2}$ ". Includes 10 sets of 60 pieces in a plastic sorting tray and a teacher's guide. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB24176 — \$88.95

N. Plastic Tangram Bucket Set
Aids in developing shape concepts, problem solving, perception of equivalents and spatial relationships, and more. Makes 4" squares. Includes 36 sets of 7 pieces (total of 252 pieces) in 4 colors.
TB15191 — \$25.00

O. Nasco Fraction Circles Group Set
Hands-on manipulatives help illustrate basic fraction concepts. Includes 10 plastic fraction circles sets. Each set includes $1, \frac{1}{2}, \frac{1}{3}, \frac{1}{4}, \frac{1}{5}, \frac{1}{6}, \frac{1}{8}, \frac{1}{10}$, and $\frac{1}{12}$, 1 transparent fraction circle set, and an instructional guide. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB16622 — \$46.75

P. Nasco X-Y Coordinate Geoboard Classroom Set
Use in lessons requiring algebraic thinking to model points, line segments, functions, and conic sections. 15 x 15 grid and sliding axes allow the illustration of numbers from -14 to 14 on both the x- and y-axes. Includes 30 x-y coordinate geoboards ($9\frac{1}{2}$ " x $9\frac{1}{2}$ "), 2 bags of geobands (250 geobands per bag), and storage container. Includes lesson plan. **CHOKING HAZARD (I).** Not for under 3 yrs.

Adding & subtracting mixed numbers
Math Lesson Plan

Nasco Education LESSON PLAN Math

Adding & subtracting mixed numbers (carrying & borrowing)

Content
Use a concrete model to explicitly show students how to carry and borrow when solving specific fraction addition and subtraction problems.

Objectives
Students will:
• Solve fraction addition and subtraction problems.
• Use concrete models to solve fraction addition and subtraction problems.
• Read the base ten number system (L2) of two whole fractions or mixed numbers.

Materials List
• Plastic Pattern Blocks (TB11454(A) – TB12000)
• Giant Magnetic Pattern Blocks (TB25549) optional
• Worksheet and answer key (included with lesson plan)

To download this free lesson plan, visit nascoeducation.com/lesson-plans and search U27671.

Giant Magnetic Pattern Blocks
Proportionately sized blocks are 3 times the length of standard pattern blocks on each side and 9 times greater in total area. Includes 47 magnetic pattern blocks. Largest piece (hexagon) measures approx. 6".

Working with the Beaded Number Line Teacher Resource
Gr. 1-5 Learn how to use the beaded number line in your classroom with this handy reference. Provides 60 educator-tested, hands-on activities for elementary students to help them with counting, skip-counting, place value, rounding to the nearest 10 or 100, operations on whole numbers and decimals, and more. Standards-aligned and divided by grade level, the guide also includes step-by-step instructions, suggested assessment questions and reproducible blackline masters. Formative assessments included. NE30005 – \$19.95

Rekenrek is a visual model for building a strong understanding of number sense that aids students in:

- » Counting
- » Subitizing
- » Making 10s
- » Decomposition of numbers
- » Grouping to solve addition and subtraction problems

WHAT IS REKENREK?
Rekenrek translated means arithmetic rack. The Rekenrek was developed by Adrian Treffers, a mathematics curriculum researcher at the Freudenthal Institute in Holland, to support the natural development of number sense in children. Students can use the Rekenrek to develop computation skills or solve contextual problems by finding and using patterns and relationships. The Rekenrek looks similar to an abacus; however, it is not based on place value columns like an abacus. Each row consists of 10 beads, a set of 5 red beads and a set of 5 white beads. Similar to the ten frames, this visual tool allows students to see the quantities of 5 as a whole and to develop strategies to solve equations like 5 + 3, 10 + 2, etc.

Horizontal Abacus
High-quality wooden abacus with beads grouped in fives and tens. One side is marked with 1,000, 100, 10, and 1. 9⁵/₈" x 7¹/₂". **CHOKING HAZARD (I).** Not for under 3 yrs. EL11864 – \$11.50

Abacus
Gr. PreK+ Explores number concepts and develops basic math skills in counting, addition, and subtraction. Features 10 rows of beads (5 red and 5 white beads per row). 8¹/₄" x 7⁷/₈" x 3¹/₂". **CHOKING HAZARD (I).** Not for under 3 yrs. TB24221 – \$14.95

- Nasco Algebraic Bossé Tiles**
Translucent Algebra Tiles™ represent the different elements of an algebraic equation for a hands-on connection to algebraic concepts. Books provide a variety of practice problems and information about using the Bossé Tiles to find and double-check answers.
- Bossé Tiles X and Y Class Set**
Gr. 6–12 Includes 4 sets of x and y Bossé Tiles, *Algebraic Bossé Tiles Activity Book I* for Pre-Algebra and Algebra I, teacher's guide, and storage container. ⚠ CHOKING HAZARD (1). Not for under 3 yrs.
TB24441 – \$77.95
- Bossé Tiles X, Y, and Z Class Set**
Gr. 7–12 Includes 4 sets of x, y, and z Bossé Tiles; *Algebraic Bossé Tiles Activity Book II* for Algebra I and Algebra II; teacher's guide; and storage container. ⚠ CHOKING HAZARD (1). Not for under 3 yrs.
TB24569 – \$109.95

- X, Y, and Z Bossé Tiles Only.**
Includes x and y Bossé Tiles and z Bossé Tiles, for a total of 340 pieces. ⚠ CHOKING HAZARD (1). Not for under 3 yrs.
TB24570 – \$27.95
- X and Y Bossé Tiles Only.**
Includes 240 pieces, teacher's guide, and storage container. ⚠ CHOKING HAZARD (1). Not for under 3 yrs.
TB24571 – \$12.95

Foam Algebra Tiles™ Classroom Set
30 student sets (32 pieces each), transparent Algebra Tiles™, book, and clear storage container. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB21935 — \$84.95

Alge-Tiles™
Gr. 6–12 Use rectangles and squares of different sizes and colors to explore integers, equations, ratios, and algebraic expressions. 15 sets of x tiles (43 pieces in each set), 15 sets of y tiles (25 pieces in each set), 15 student organizers, and 130-page teacher's blackline resource binder, in a storage tub.
TB18594 — \$200.00

Magnetic Algebra Tiles™
Gr. 6+ For demonstrations on whiteboards or other magnetic surfaces. Set of flexible magnetic sheets with “punch-out” Algebra Tiles™. 72 geometric shapes in a variety of sizes; largest piece is 5" x 5". ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB24299 — \$13.95

Working with Algebra Tiles
Gr. 6+ Model math problems with algebra tiles to build and solve equations. Covers integer operations, linear and quadratic expressions, perimeter, and more. 120 pages.
TB23167 — \$17.95

Pre-Algebra Learning Wrap-Ups® Class Kit
Gr. 6–8 Help students gain a strong foundation for upper level math using these self-correcting Wrap-Ups®. Students simply draw the string around the Wrap-Up® from the problem on the left to the answer on the right, if the answers are correct, the string covers the lines on the back. They will learn what to do when dealing with integers, solving for the unknown, expressions, mental math, prime factoring, perfect squares, square roots, and formulas for area, perimeter, and volume. In all, there are 600 different problems to practice and review. Includes 30 sets of Wrap-Ups® (six each of five titles). ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB22032 — \$229.95

Algebra Dominoes
Gr. 2+ Practice algebraic equations by completing the algebra matching game. Set of 28 plastic dominoes. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB27538 — \$12.95

Algebraic Expressions and Equations Dominoes
Gr. 5–6 Practice and reinforce algebraic expressions and equations. Instructions and two sets of 24 color-coded foam dominoes (4" x 2"). For up to 4 players.
TB27200 — \$17.95

Nasco Factoring Math Matching Game
Gr. 6–12 Solve a factoring problem on one card, find matching answer on another card, then match cards together to begin building an 8 x 8 grid containing a clever quip. Play individually or in groups of 2–3 students.
TB25952 — \$19.95

ONLY AT
NASCO

Nasco Equation Math Matching Game
Gr. 6–12 Solve a one-step or two-step equation problem on one card, find matching answer on another card, then match cards together to begin building a 4 x 4 grid containing a clever quip. Play individually or in small groups.
TB25018 — \$15.15

ONLY AT
NASCO

Nasco Quad-Factors Game
Gr. 7+ Improve factoring of quadratic equations and binomial expansions. Find the right answers in 30 seconds to earn points. Play between teams or individuals. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB23798 — \$19.95

Nasco I Have... Who Has... Algebra Game
Gr. 6+ Help students become comfortable and confident using mental math to solve for x in one-step and two-step equations. Includes 2 decks of cards, 30 cards each.
TB23723 — \$9.95

ONLY AT
NASCO

Nasco Geometry/Algebra Bingo Set
Gr. 5+ An excellent way to review geometry and algebra concepts. Each game includes 30 bingo cards, 50 problem cards, master answer list, and plastic markers. Set of 5 bingo games includes Middle School Geometry, High School Geometry, Pre-Algebra, Algebra Equations, and Algebra.
TB25355 — \$85.25

Nasco Pre-Algebra Bingo
Gr. 5–8 Questions cover operations with whole integers, fractions, and decimals; solving linear equations; and evaluating open expressions.
TB16228 — \$18.95

NewPath Learning® Algebra Skills Curriculum Mastery® Games Classroom Pack
Gr. 6–8 Includes 25 sets of 30 review cards per topic (750 questions); 12 double-sided, laminated game boards; teacher guide; and free online subscription to additional questions, interactive games, flash cards, assessments, and more. For 36 students. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
TB24918 — \$119.95

The Algebra Game
Engages students in working collaboratively to form a multitude of algebraic equations. Cards display graphs, equations, coordinate pairs, and other specific information that, when used together, support the notation of an equation. For up to 12 students working together. Aligned to the CCSS.

Quadratic Equations: Basic Card Set. Gr. 8+
Match cards featuring factors, roots, coordinate pairs, and graphs. 288 cards and 72-page guide.
TB26776 — \$52.95

Linear Graphs Card Set. Gr. 6+
Match slope and y-intercept cards to make sense of linear equations. 288 cards and 72-page guide.

TB25813 Algebra 2: Part 2 (53 posters)
Set – \$74.95

Why Study Algebra? Poster
Answer students' questions before they ask. 20½" x 28".
TB18758 – \$31.75

Algebra Tips Posters
Gr. 7+ Ease the burden of teaching algebra while helping students think for themselves. Posters show the how and why of a concept because students only remember what they truly understand. Covers functions, absolute values, radicals, quadratic formula, and more. Set of 12; 19" x 25" each.
TB22205 – \$64.95

Math Around the World Poster Set
Gr. 6–10 Introduce students to math throughout history and from around the world. Includes tessellations in Islamic art, Maya numerals, the Chinese abacus, and money in West Africa. Reinforces math concepts and appeals to diverse learning styles through photos and illustrations. Set of 12; 24" x 32" each.
TB18084 – \$27.95

A. Algebra I Poster Set
Gr. 7–12 Help students grasp difficult math concepts and correct common algebra mistakes. Posters zero in on areas such as slope, coordinate plane, graphing, scientific notation, “like” terms, and multiplying binomials. Other posters help with some common mental mistakes. Set of 12; 19" x 25" each.
TB24282 – \$64.95

B. Multicultural Poster Set
Eye-catching graphics and historical information combine to showcase mathematics of a particular culture or region. Compare present-day methods of computation to those of the past. Learn how math discoveries changed cultures and society. Set of 16 posters highlights math of the Aztecs, Babylon, the Inca, Ireland, Africa, China, Japan, the Maya, Egypt, Korea, Russia, the United States, Arabia, Europe, India, and the Navajo. Average poster size: 23½" x 36".
TB18733 – \$149.95

C. Advanced Algebra Poster Set
Gr. 9+ Reinforces concepts students have already learned in pre-algebra and first-year algebra. Introduces new topics such as complex numbers, matrices, the number e, and logarithms. Uses definitions, mnemonics, and visual references. Set of 12; 19" x 25" each.
TB23479 – \$64.95

D. Cooperative Learning & Pre-Algebra
Gr. 6–10 Step-by-step cooperative learning activities and explorations allow students to solve problems together, help each other out, and discuss pre-algebra concepts such as integers, ratios, and coordinate planes daily. 312 pages.
TB24284 – \$33.95

E. Cooperative Learning & Algebra 1
Gr. 7–12 Make abstract algebraic concepts more concrete and understandable with teamwork activities that focus on rational numbers, linear systems, quadratic functions, and more. 464 pages.
TB23914 – \$33.95

F. Cooperative Learning & Algebra 2
Gr. 9–12 Practice math skills using RallyCoach, Sage-N-Scribe, Quiz-Quiz-Trade, and other interactive Kagan structures. Full Algebra 2 curriculum with lessons and activities sequenced to maximize comprehension. 464 pages.
TB26201 – \$33.95

G. The Algebra Teacher's Activity-A-Day
Gr. 6–12 Develop problem-solving strategies and logical reasoning with over 180 activities based on Algebra 1 and Algebra 2 content. Correlated to NCTM Standards as well as algebraic content objectives. 36 reproducible pages.
TB24872 – \$20.95

H. The Algebra Teacher's Guide to Reteaching Essential Concepts and Skills
Gr. 6–12 Help students who struggle with algebra understand the most important concepts, meet CCSS, and prepare for math testing with easy-to-use mini-lessons and worksheets. 320 pages.
TB25278 – \$32.95

I. Algebra Station Activities for Common Core Standards
Gr. 9–12 Each activity set consists of 4 different stations (10–15 minutes each) where students work in small groups on multiple sets of activities. A debrief discussion follows station activities.
Algebra I. 282 pages. **Algebra II.** 238 pages.
TB25312 – \$47.95 **TB25311 – \$47.95**

J. Daily Warm-Ups for Common Core State Standards
Ideal for quick reinforcement or to fill a spare bit of time. Targeted problems directly address CCSS and Mathematical Practices. Each problem builds problem-solving skills and strengthens understanding of key concepts.
Pre-Algebra. Gr. 6–12 132 pages. **Algebra.** Gr. 9–12 162 pages.
TB25642 – \$28.95 **TB25643 – \$28.95**

K. Real-Life Math: Algebra

Gr. 5–12 Each 11" x 17" card stock poster includes a word with its definition contained within the image. Spanish translations are in bottom right-hand corner of each poster. Set of 53.
TB25063 – \$74.95

B. Math Graffiti Word Wall Posters – Statistics
Gr. 7–12 Each 11" x 17" card stock poster includes a word with its definition contained within the image. Spanish translations are in bottom right-hand corner of each poster. Set of 50.
TB26526 – \$74.95

C. Write-On/Wipe-Off Unit Circle Mats
Gr. 10–12 Evaluate trig functions with flexible plastic mats. One side has all segments; the other side has just X-Y segments. For use with dry-erase markers (not included). Set of 10; 9" x 12" each.
TB27211 – \$16.95

Nasco Primary Calculator
Students can start with basic math operations and work their way up to more advanced concepts such as percents and square roots. Solar- and battery-powered calculator features 4 main functions, three-key memory, and auto power-off. **CHOKING HAZARD (I).** Not for under 3 yrs.
TB23305 — \$3.95

Casio® SL-450S Classroom Calculator
Specially designed for both students and educators. Function signs appear in the display to make teaching easier. Hard plastic keys. Sliding hard case. 8-digit display. 7 functions (+, -, ×, ÷, %, +/-, √). Color-coded keyboard. Three-key memory. High-power solar cell.
TB16145 — \$7.75

Classroom Calculator
Perfect beginner's calculator. Dual-power calculator. Folding, hi-impact plastic cover. Large, easy-to-read LED characters. Features negative sign in front of number. Includes +/-, √, %, MRC, M-, M+, +, -, ×, ÷, and = keys.
TB21559 — \$2.95

A. Victor® 910 Soft-Grip Calculator
Stylish 8-digit display calculator is built to survive frequent use by students with its soft rubber grip and protective snap-on cover. Assorted colors (no choice).
TB24047 — \$7.65

B. TI-108 Solar Calculator
Dual solar and battery operation works in well-lit areas using the solar cell and in other light settings using battery. Color-coded keyboard with hard plastic keys. Percent key helps figure tips, taxes, and discounts. Change sign (+/-) key allows entry of negative numbers. Protective slide case.
TB14985 — \$7.95
Teacher Kit. 10 TI-108 solar calculators, 1 poster, 1 transparency, and carrying case.
TB17145 — \$69.95
Classroom Set. 30 TI-108 solar calculators, 3 posters, and 3 cardboard storage boxes.
TB17146 — \$210.00

C. Student Calculator
Multifunction calculator is ideal for introducing basic math operations to students. Key features include dual power source (solar and battery), auto shutoff, 8-digit LCD display, 3-key memory, and 4 functions.
TB26739 — \$3.50

D. Sharp® EL-243S Solar Basic Handheld Calculator
Economical, basic calculator with 8-digit LCD display and 3-key memory. Percent and square root keys. Operates on built-in solar cells (80 lux minimum).
TB16661 — \$7.25

E. TI-1706SV Solar Power Calculator
Solar powered with a SuperView display. Eight-digit display with 3-key memory. Color-coded keyboard with extra-large plus key. Change sign (+/-) key simplifies entry of negative numbers. Square root key is useful for school work. ANYLITE solar power allows operation even in low light. Protective slide case.
TB17148 — \$9.95

F. Casio® HS-4G Basic Solar Electronic Calculator
An economical calculator for the classroom. 8 digits (16-digit approximations). Constants for +, -, ×, and ÷. Independent memory. %, +/-, and √ functions. Time calculations. 3-digit comma markers. Solar panel.
TB16495 — \$4.95

TI-30Xa Scientific Calculator
An ideal scientific calculator for general use. Add, subtract, multiply, and divide fractions entered in traditional numerator/denominator format. Offers basic conversion functions.
TB22048 – \$14.95

Casio FX-300ES Plus Scientific Calculator
Gr. 6+ This updated calculator comes with Natural Textbook Display which shows formulas and results exactly as they appear in the textbook. Designed for middle school and high school students learning general math, pre-algebra, algebra 1 and 2, geometry, trigonometry, statistics and physics. Offers all the functionality needed including fraction calculations, statistics and tables. Comes in a protective hard case.
NE30103 – \$18.95

Casio® fx-260 Scientific Calculator
An all-purpose scientific calculator. 144 built-in math functions. Accurate 10-digit, 10+2 display. Fraction functions. Back-space key to fix entry mistakes. Basic scientific, exponential, and trigonometric functions. Single-variable statistical calculations. Order of operations M-D-A-S. Solar power. Polar-rectangular conversion. Slide-on hard case.
TB17637 – \$14.95

Bazic 3002 Scientific Calculator
Offers 56 built-in scientific functions. 10-digit, 10+2 display. Battery powered with auto off. Slide-on hard cover. Assorted colors; no choice.
TB27400 – \$6.00

TI-36X Pro Solar Calculator
Displays multiple calculations on-screen at the same time. Shows math expressions, symbols, and stacked fractions as they appear in textbooks. Input data, scroll through entries, and make edits like on a graphing calculator. Convert fractions, decimals, and terms like pi into alternate representations. Select degrees/radians, floating/fix, and number format modes. Choose from numeric equation, polynomial, and system of linear equations. Determine the numeric derivative and integral for real functions. Vector and matrix entry window. Metric/English conversions. Dual power source: solar and lithium battery (included).
TB27131 – \$29.95

Sharp® EL-501X Basic Scientific Calculator
Ideal for general math, pre-algebra, algebra, and trigonometry. 131 functions and an uncluttered keyboard with a large "=" button to minimize mistakes. Can be used for regression analysis in statistics, as well as complex number calculations and constant calculation.
TB25616 – \$12.50

TI-15 Explorer™ Calculator

Combines the fraction capabilities of the Math Explorer™ with two-line display, problem solving, place value, and more. Two-line display shows entries and results at the same time. Previous-entry feature lets you review previous entries and results and look for patterns. Stacked fractions feature shows operations with stacked fractions or mixed numbers. Displays results as quotients and remainders, fractions, or decimals. Place value feature helps develop understanding of place value.

TB18561 – \$21.50

Teacher Kit. Includes 10 TI-15 Explorer™ Calculators, 1 poster, 1 teacher's guide, and 1 carry case.

TB18562 – \$199.95

Classroom Set. Includes 30 TI-15 Explorer™ Calculators, 3 posters, 3 teacher's guides, and 3 carry cases.

TI-30XS MultiView™ Scientific Calculator

Advanced scientific calculator with four-line display lets you view multiple calculations and answers, just as you would on paper. Easily scroll, review, and edit current or previous entries. "Mathprint" entry and output mode for viewing calculations in math notation, including answers in terms of pi, square roots, and fractions. Toggle key lets you change the form of answers between exact and decimal approximation. Features pasting of inputs or outputs into new calculations. "Classic" mode for similar entry and compatibility with two-line scientific calculators. Automatic simplification of fractions. Conversion of angles from degrees to radians to grads. Auto power off. Nonskid rubber feet.

NA10400 – \$21.95

EZ Spot Teacher Kit. 10 EZ Spot yellow calculators, poster, and transparency.

NA10401 – \$190.00

Casio® fx-55 Plus Scientific Calculator

Natural Textbook Display feature helps students learn elementary math such as fractions, division with remainder, and random numbers. True Fraction Display helps students understand the math behind improper fractions, mixed fractions, and simplification. Intuitive functions. Easy fraction/decimal conversion.

TB25743 – \$26.95

Teacher Kit. Includes 10 calculators, 1 workbook, and 1 poster.

TB25746 – \$169.95

TI-30X IIS Calculator

Two-line display lets you see entry and calculated result at the same time. View entry and result at the same time. Edit current entry. Menus with functions and mode setting. Includes 5-variable memories. With 1- and 2-variable statistics include results for linear regression and trend line analysis. Enter/delete/insert/edit individual statistical data elements. Trigonometric functions in degrees and radians. Common and natural logarithms. Fractions and fraction/decimal conversions. Degrees, minutes, seconds/decimal degrees conversions. Solar powered.

TB18506 – \$20.00

Teacher Kit. Includes 10 calculators, 1 poster, 1 teacher's guide, and 1 carrying case.

TB18507 – \$185.00

TI-34 MultiView™ Scientific Calculator

Offers functions needed for middle school math, pre-algebra, algebra I and II, trigonometry, general science, geometry, and biology. Four-line, 16-character LCD display allows for scrolling and editing inputs. Simplify and convert fractions to decimals and back again. Integer division key expresses results as quotient and remainders. With 1- and 2-variable statistics. Toggle key for viewing terms in alternate forms. "Classic" mode switches to similar entry and compatibility with previous two-line scientific models. "Mathprint" mode for input in math notation and math notation output for fractions. Integer division denotes quotient and remainder. Random number and random integer generator. 7 memories. Auto power off. Impact-resistant cover with quick-reference card. Battery and solar powered.

Matatalab Coding Set

Gr. PreK-4 Screenless, words-free robot helps students learn how to code. Image recognition technology allows the command tower to recognize tangible coding blocks in front of the device and execute the program. Develops cognitive abilities, imagination, coding skills, and problem-solving skills. Robot car, command tower, control board, 37 coding blocks, 8 obstacles, 3 flags, 3 challenge booklets, and nature map. **CHOKING HAZARD (I).** Not for under 3 yrs.

ELI6528 – \$169.00

Cubelets®
Gr. PreK-12 Introduce students to robotics, coding, and design thinking as they create simple, mobile, and reactive robots by combining sense, action, and think blocks. Blocks automatically route power and data where needed. Arranging the same blocks in a different configuration creates an entirely new robot. Brick adapters connect brick-based construction systems for thousands of possibilities. Bluetooth® Hat pairs robot with any Bluetooth®-enabled wireless device. Battery Cubelet® is required to build any robot. Lead free.

A. Thames & Kosmos Remote Control Machines Space Explorers Experiment Kit

Gr. 3-5 Ready your courageous robots for a mission to the moon, Mars, or beyond! The remote control controls up to three motors, which move the rover back and forth, turn the wheels to steer the rover, and control the robotic arm to pick up extraterrestrial specimens like small rocks. With 256 pieces, you can build not only the rover, but nine other space-themed models. A full-color, 80-page, step-by-step manual helps students assemble all the models and teaches them about real-world examples of outer space robots. Requires six AAA batteries (not included).

⚠ CHOKING HAZARD (I). Not for under 3 yrs.

ELI4871 — \$99.95

B. Thames & Kosmos® KAI: The Artificial Intelligence Robot

Gr. 5+ Build and program an intelligent, six-legged, app-enabled robot that "learns" from your physical gestures and sounds. KAI can also be controlled remotely through the app and show different expressions and scrolling messages. Full-color, 64-page manual provides step-by-step illustrated assembly and programming instructions and teaches lessons in AI and robotics. App requires iOS or Android device.

NE30399 — \$99.95

C. Thames & Kosmos Robotics: Smart Machines – Tracks & Treads

Gr. 3-9 Students will have everything needed to build 8 robots that use continuous tracks, also known as tank treads, to move. In addition to constructing the models, they'll learn how to use the included visual programming app to code. Includes 197 pieces and 60-page guide. Models require 3 "AA" batteries. Tablet or smartphone required to use programming app (available for iOS and Android). ⚠ CHOKING HAZARD (I). Not for under 3 yrs.

NE30280 — \$139.95

D. Robotics: Smart Machines

Gr. 5+ Code programs using an easy, visual programming app on a tablet or smartphone. Edison V2.0 Robot
Gr. K-12 Complete STEM teaching resource for coding and robotics education. With built-in sensors, lights, sounds, and autonomous behavior capabilities, true robotics education is accessible to students of all ages. Not just a remote-controlled robot, also responds to light and sound, follows lines and avoids obstacles, communicates with other Edison robots, connects to other Edison robots and LEGO® bricks, and more. Robotics capabilities can be unlocked with ease through simple barcode programs. Students can then progress their robotics, coding, and STEM education journeys using 3 progressive programming languages. Can also be used to build and invent as the programmable base for an incredible range of engineering and STEM projects thanks to expandable robotics system that works with LEGO® bricks. **SB52949 — \$49.95**

A. Nasco Simple Building Materials Kit
Economical assortment of materials for building simple STEAM projects. Enough for 24 students. Comes in a clear storage container. Includes lesson plans. **⚠ CHOKING HAZARD (I). Not for under 3 yrs.**
TB27626 – \$126.95

B. 3Dux GO-Pack Maker Kits – Set of 8
Gr. PreK–8 These cardboard construction sets include everything students need to design and build anything they can imagine. Perfect for the makerspace, classroom and distance learning. Each kit includes a 3DuxDesign backpack, over 50 geometric cardboard shapes, 45 assorted 3DuxDesign connectors, string, straws, copper fasteners, pom poms, pipe cleaners, graph paper, ruler and animal figurine. Also includes downloadable ideas. **⚠ CHOKING HAZARD (I). Not for under 3 yrs.**
NE30104 – \$224.95

C. Roller Coaster Engineering
Gr. K+ Introduce students to the ups and downs of designing and building dozens of working roller coaster models. As they complete challenges they'll experiment with variables such as car weight, slope, and length. Give them a practical and fun introduction to physics principles, including gravitation, potential energy, kinetic energy, projectile motion, friction, centripetal force, velocity, and acceleration. Includes 330 pieces and a 32-page guide. **⚠ CHOKING HAZARD (I). Not for under 3 yrs.**
NE30147 – \$49.95

3DuxDesign Architectural Modeling Sets
Cardboard construction system integrates art, design, and open-ended creative play with STEM fundamentals. Building sets provide everything students need to create a featured structure, as well as additional pieces to expand the set or to build their own creations. Can be used for architecture, urban planning, engineering, 3-D modeling, and prototyping. Connectors work with most single-ply cardboard. **⚠ CHOKING HAZARD (I). Not for under 3 yrs.**

D. Iconic Home. Gr. K+ Includes 83 pieces.
SB53280 – \$24.95
Modern Museum. Gr. 1+ Includes 76 pieces.

Build a bridge to immersive learning with hands-on engineering projects

A. Polydron® Bridges Classroom Set
Simple design allows students to make the most recognizable and world-famous bridge constructions spanning some of the most famous landscapes on earth. Challenge students to experiment with their own creations using the work cards and lesson plans. 322 pieces for building all 8 bridges at the same time. Teacher's guide. **CHOKING HAZARD (1).** Not for under 3 yrs.
SB45866 — \$287.95

B. K'NEX® Education Introduction to Bridges
Gr. 3-6 Immerse students in the STEM experience as they build 7 key bridge types (13 bridge models total). Curriculum guide on CD-ROM. Includes 207 pieces in a storage tray with movable dividers and snap-on lid. Supports 2-3 students working as a team.
TB20794 — \$46.95

C. Kemtec™ Structures & Bridges Kit
Gr. 7+ Students will gain knowledge of structural engineering and how it is used to support or resist loads. Study different types of bridges and the STEM principles that support them. Construct 6 working models including a house, suspension bridge, cable-stayed bridge, arch bridge, and 2 different truss bridges. Students will also be challenged to build the largest free-standing tower in the class using the kit components. Finally, the students will need to apply all they have learned to build a bridge that spans 70 cm and will support a minimum distributed static load of 2 kg using only 100 plastic straws and a limited amount of masking tape. For 24 students working in 6 groups of 4. Kit contains 6 sets Engino® structures and bridges parts, 6 Engino® 36-page activity books, 6 Engino® 26-page building instructions, dowel rod, 6 rulers, spring scale, string roll, masking tape, 600 straws, 6 scissors, 24 student worksheets, and teacher's manual with lesson plans. **CHOKING HAZARD (1).** Not for under 3 yrs.
SB49883 — \$699.95

D. Mechanical Engineering: Robotic Arms
Gr. 2-9 Build 6 mechanical models of the types of arms, grabber claws, and legs found on robotic machines. Models are operated by a pneumatic system which uses air pressure. Construct a pivoting robotic arm with a gripper claw, an extra long grabber claw, a compact grabber claw, a vertical three-fingered claw, and more. Learn how pneumatic and hydraulic systems are used in industrial robots to enable robots to manipulate heavy objects. 201 parts and 32-page instruction book.
EL15806 — \$59.95

E. Nasco Clinometers and Water Rockets Unit
Gr. 3+ Experiment with variables (amount of water, force, and altitude) and record data using water rockets and clinometers (a device used to measure an angle of elevation). Each unit includes enough materials for a class of 30 students. Includes 20 water rockets (2 for every 3 students), 20 clinometers (2 for every 3 students), 10 measuring tapes (1 for each group of 3 students), 10 sets of student team data sheets (1 set for every 3 students), and teacher's guide. Requires 10-30 calculators (not included). Calculators and extra water rockets may be purchased separately.
TB16224 — \$350.00
Extra Clinometer
TB16572 — \$6.95

F. KEVA® Maple Wooden-Plank Construction Set
Gr. PreK+ Build bridges, houses, and towers with hardwood construction blocks. Stable stacking without any connectors. Every plank is 4½"L x ¾"W x ¼" thick. 400 pieces, 2 KEVA® balls, and instruction/game book.
SB46105 — \$199.95
G. KEVA® Contraptions™ 200-Plank Kit
Gr. 2+ Gain an understanding of physics and engineering concepts through trial and error. Construct tracks of tunnels, funnels, ramps, and chutes, then set the ball rolling. No glue or connectors required. 200 pine planks, 2 balls, and an idea booklet. For 1 or more students. **CHOKING HAZARD (4).** Not for under 3 yrs.
SB49049 — \$59.95

H. Roller Coaster Challenge™
Gr. K+ A roller coaster building experience that incorporates elements of a logic puzzle, while encouraging creativity. Choose a challenge card and set up the pieces to match. Once each challenge is solved, watch a coaster car glide down the track with dips, curves, and loops. Includes game grid, 39 track pieces, 36 post pieces, 2 tunnels, 40 challenge cards with solutions, and instructions.
TB27384 — \$33.95
I. ZigZag Block Set
Gr. PreK+ Stack, build, and create with this open-ended set of 30 blocks. Students can use to develop logical reasoning skills and express their imagination as they build their creations. There are 5 pieces in 6 shapes including a spacer piece to add increased height to models.
NE30266 — \$59.95

A. Eco-Wood-Art Windmill Construction Kit
Gr. 8+ Build a beautiful working model of a classic windmill. Wind-up rubber band rotation mechanism turns the sails. Made of FSC-certified plywood that can be painted with thin water-based paints. 424 pieces. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30466 — \$51.95

B. Mr. Playwood Eco-Light Kits
Gr. 8+ Build your own architectural masterpieces. Hand-crank electric generator lights up a small LED lamp at the top of the structure — no batteries! Laser-cut plywood. No glue needed. Includes step-by-step instructions. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30468 Eiffel Tower, 163 Pieces — \$81.95
NE30469 Alexandria Lighthouse, 280 Pieces — \$81.95

C. Eco-Wood-Art Airplane Construction Kit
Gr. 8+ Construct a replica of a classic airplane. Features rubber band engine, propeller rotation mechanism, and mechanism for rotating the wing and tail elements. Made of FSC-certified plywood that can be painted with thin water-based paints. 346 pieces. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30467 — \$64.95

D. Trebuchet Construction Kit
Gr. 8+ Model features adjustable rubber band tension for testing different distances. Kit includes wood material, candle wax for gears, sand paper, rubber bands, and step-by-step assembly instructions in a storage box. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30190 — \$37.95

E. Eco-Wood-Art Kinetic Globe Construction Kit
Gr. 8+ Assemble and customize an Eco-Wood-Art model using this kit. Once assembled in class, students will have a model version of a kinetic globe that consists of inner and outer rotating spheres. The wind-up rubber band engine will make the spheres move around the axis in opposite directions. A great technical project for any engineering or STEM/STEAM lesson. The eco-friendly sustainable material is made of FSC certified, laser-cut plywood with amazing details. The plywood can be painted with thin water-based paints. Self-assembly is required. There's no need for glue or batteries. Kit includes wood material, candle wax for gears, sand paper, rubber bands, and step-by-step assembly instructions inside of an all-inclusive box. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30192 — \$41.95

F. Planetary Gear Construction Kit
Gr. 8+ Assemble and customize an eco-friendly model using this kit. Once assembled in class, students will have an educational tabletop model that demonstrates the essence of planetary gears, used as speed reducers, slowing down motors and increasing torque. Use the model to teach students how gears work. Kit includes wood material, candle wax for gears, sand paper, rubber bands, and step-by-step assembly instructions in storage box. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30197 — \$47.95

G. Cruiser Construction Kit
Gr. 8+ Assemble and customize an eco-friendly model using this kit. Once assembled in class, students will have a realistic wind-up model featuring a simple pull-back rubber band engine, turning handle bar, and a functional kickstand to display finished model. Kit includes candle wax for gears, sand paper, rubber bands, and step-by-step assembly instructions in a storage box. ⚠ CHOKING HAZARD (I). Not for under 3 yrs.
NE30176 — \$31.95

STEM Starters Activity Kits
Gr. 3–9 Get their problem-solving wheels turning with these hands-on projects. Give them the challenge of discovering how to combine kit contents with everyday items to get fun results. Use with 6 individual students (in class or at home) or 6 small groups.

Zip-Line Racers STEM Kit. Build a propeller-powered device that travels along a string. Kit includes: propellers, rubber bands, craft sticks, multicolored mini craft sticks, skinny craft sticks, paper straws, pipe cleaners, and string.
NE30067 — \$29.99
