**EMERGENCY OVERVIEW:** As noted in the preface to published values adopted by the ACGIH, TLV's represent "conditions under which it is believed that nearly all workers may be repeatedly exposed day after day without adverse effect. Because of wide variation in individual susceptibility however, a small percentage of workers may experience discomfort from some substances at concentration at or below the threshold limit; a smaller percentage might be affected more seriously by aggravation of a pre-existing condition or by development of occupational illness."

**ROUTES OF ENTRY:** Dermal contact. Eye contact. Inhalation. Ingestion.

**POTENTIAL ACCUTE HEALTH EFFECTS**

**EYES:** Irritation to eyes. May cause redness or temporary swelling. Vapors also may irritate eyes.

**STORAGE TEMPERATURE:** 40-90 F

**SHELF LIFE:** 12 months from date of manufacture

---

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION**

---

**EYE PROTECTION:** Eye protection such as chemical splash goggles and/or face shield must be worn when possibility exists for eye contact due to splashing or spraying liquid, airborne particles or vapor. Contact lenses must not be worn.

**SKIN PROTECTION:** Depending on the conditions of use, protective gloves may be worn for cleanliness.

**RESPIRATORY PROTECTION:** If workplace exposure limits of product or any component is exceeded, NIOSH/MSHA approved respiratory protection must be used.
