703-527-3887 Outside U.S. and Canada (Collect)

Product Name: TULIP COLOR SHOT
Product Description: Fabric Paint Spray

2. HAZARDS IDENTIFICATION

The contents are flammable and maybe harmful by deliberate prolonged inhalation or ingestion. DME propellant is an asphyxiant if there is insufficient ventilation. This would constitute abuse of the product.
Always wash hands after use. Repeated exposure may cause skin dryness or cracking.
Keep in a safe place away from children.
Flammable: pressurized container. Protect from sunlight and do not expose to temperatures exceeding 122°F (50°C). Do not spray onto an exposed flame, any incandescent material, hot surface or unprotected electrical equipment.
Do not breathe spray mist. Vapors may cause drowsiness and dizziness.
Do not spray near eyes. Irritating to eyes.

3. COMPOSITION / INGREDIENT INFORMATION

Ingredient	CAS #	Composition
Modified Acrylic Resin	NA	10% - 20%
Ethanol	64-17-5	20% - 30%
Pigment	NA	5% - 15%
Deionized Water	7732-18-5	5% - 15%
DME	115-10-6	10% - 30%

4. FIRST AID MEASURES

Eye Contact:	Product is classified as irritating to eyes. Never discharge aerosols near eyes/mucous membranes. Flush with large amounts of water. Seek medical advice.
Skin Contact:	Wash affected skin areas thoroughly with soap and water. Mild irritation may occur. Repeated contact may cause skin dryness and cracking. Consult a physician if irritation persists.
Inhalation:	Move subject to fresh air.
Ingestion:	Seek medical advice. The contents would likely be absorbed by the body with no significant effects but may cause nausea and discomfort. Carry out a gastric lavage to reduce discomfort. Treat symptomatically.

iLoveToCreate Safety Data Sheet – Tulip Color Shot

5. FIRE FIGHTING MEASURES

Autoignition Temperature:	Unknown
Flash Point:	Nominally 32°F (0°C)
Upper Explosive Limit (%):	Unknown
Lower Explosive Limit (%):	Unknown
Extinguisher Media:	CO ₂ , BCF, Dry Powder, Sand or Earth. For large fire use foam, waterfog, or spray, avoiding contamination.
Special Firefighting Procedures:	Use water to cool undamaged stock only. Avoid contamination of the water courses where damaged stock is leaking.
Fire & Explosion Hazards:	Pressurized aerosols should not be exposed to temperatures exceeding 122°F (50°C).

6. ACCIDENTAL RELEASE MEASURES

Spill or Leak Procedures:	Initial spillage would be flammable. Keep damaged containers away from ignition sources and in a well ventilated area.
Environment:	In concentration of 1 – 1000 cans, the components would not present an environmental hazard as most of the product would quickly evaporate, leaving only the residue.
For safety and environmental precautions, please review entire Safety Data Sheet for necessary information.	

7. HANDLING AND STORAGE

Storage:	Always store aerosols away from sources of heat, including direct sunlight and in dry conditions. Avoid extremes of temperature and moisture. A stable, cool, dry ambient environment is most suitable. Avoid contamination with other products. The containers will not last indefinitely even when stored in a cool dry area, they should be inspected periodically during long-term storage.
Handling:	Handle carefully. In general, handling aerosols should not be considered as hazardous.

8. EXPOSURE CONTROL AND PERSONAL PROTECTION

Conditions Under Which Personal Protective Equipment Required:	Only in continuous or repeated usage conditions should personal protective measures be required or exposure controls considered.
Eye Protection Requirements:	Wear safety glasses with side shields.
Glove Requirements:	Appropriate chemical resistant gloves should be worn.
Clothing Requirements:	Use industrial work clothes. Ensure that eyewash stations and safety showers are close to the workstation location.
Respirator Requirements:	If ventilation is not possible, then suitable respiration is essential if there is a risk of solvent vapor concentrations. Use organic/inorganic vapor filters. Vapors may cause drowsiness or dizziness.
Ventilation Requirements:	As with all aerosols, the product should only be used in well ventilated areas, but responsible use is not potentially harmful.

iLoveToCreate Safety Data Sheet – Tulip Color Shot

9. PHYSICAL AND CHEMICAL PROPERTIES

Pure Material or Mixture:	Mixture
Physical Form:	Liquid
Appearance / Physical Description:	Colored liquid; aerosol odor
pH:	Not Applicable
Boiling Point:	> 109°F (43°C)
Melting / Freezing Point:	< -13°F (-25°C)
Solubility in Water:	Water soluble. Re-dispersible in alcohol.
Autoignition Temperature:	Unknown
Flash Point:	Nominally 32°F (0°C)
Oxidizing Properties:	None
Relative density:	0.92 ~ 1.03 Kg/m ³

10. STABILITY AND REACTIVITY

Stability:	Stable under normal conditions for at least 24-25 months.
Incompatibilities:	Avoid extremes of temperature including direct sunlight and extreme freezing. Avoid exposure to moisture or acids.
Flammability:	Flammable
Hazardous Decomposition Products:	Carbon dioxide

11. TOXICOLOGICAL INFORMATION

Acute Toxicity Not Classified

Skin corrosion/irritation	Causes skin irritation
Serious eye damage/irritation	Causes serious eye irritation
Respiratory or skin sensitization	None
Germ cell mutagenicity	None
Carcinogenicity	None
Reproductive toxicity	None
Specific target organ toxicity (single exposure)	None
Specific target organ toxicity (repeated exposure)	None
Aspiration hazard	None

12. ECOLOGICAL INFORMATION

The product will evaporate quickly into the air. An easily absorbed colored liquid will evaporate and leave a solid. The solid presents no significant hazards or dangerous degradation products.

Mobility will be very slow

Degradation will be relatively slow and ultimately almost complete.

Accumulation is unlikely once physical breakdown begins.

Short and long-term effects should not be considered significant. Very short term damage to aquatic and soil organisms may occur in large spillage (1000+ containers) though this should disperse quickly (especially if absorbent material is used).

iLoveToCreate Safety Data Sheet – Tulip Color Shot

13. DISPOSAL CONSIDERATIONS

Waste Disposal Methods:	Waste disposal should be in accordance with existing Federal, State, and Local environmental regulations. Containers should be totally discharged and disposed of as hazardous waste.
Empty Container Warnings:	Empty containers may contain product residue; follow SDS and label warnings even after they have been emptied. Do not puncture or burn, even after use.

14. TRANSPORT INFORMATION

U.S. Department of Transportation Information

DOT Shipping Name:	Aerosols, Flammable
DOT Hazard Class:	2.1
Marine Pollutant:	No

United Nations Information

U.N. Number:	1950
U.N. Class:	2.1

15. REGULATORY INFORMATION

TSCA:	All components are on the TSCA Inventory
FDA:	21CFR175.105
SARA/Title III:	This product contains no substances at or above the reported threshold under Section 313, based on available data.
RISK/SAFETY PHRASES	
F⁺	Flammable. Keep out of reach of children. Protect from sunlight and do not expose to temperatures exceeding 122°F (50°C). Do not pierce or burn, even after use. Do not spray onto naked flame or any incandescent material. (Aerosol safety phrases).
Xi	Irritant
R12	Extremely Flammable
R36	Irritating to eyes
R38	Irritating to skin
R66	Repeated exposure will cause skin dryness and cracking
R67	Vapors may cause drowsiness and dizziness
R51/53	Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment.
S(2)	Keep out of reach of children
S9	Keep container in a well-ventilated place
S16	Keep away from sources of ignition – No smoking
S23	Do not breath vapors/spray
S26	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice
S45	In case of accident or if you feel unwell, seek medical advice immediately (show container)
S51	Use only in well-ventilated areas
S53	Avoid exposure – Read MSDS sheet before use
