## SAFETY DATA SHEET

Polypropylene Pellets/ Resin

V#051293

SECTION 1: Identification GHS Product Identifier:	Polypropylene (PP)	the manufacture of the second s	
Product Form:	Pellets/ Resin		
Other means of Identification:	Polypropylene Random Copolyn	ner Product Series 5000, 6000 & 7000	
Recommended use of the chemical and restrictions on use:	Industrial applications/ Manufac	ture of plastic articles	
Supplier Details:			
Company Name:	Pinnacle Polymers		
Company Address:	PO Drawer E		
company Address.	One Pinnacle Ave		
	Garyville, La 70051		
Email address of responsible person:	Bryan.englade@pinnaclepolyme	ers.com	
Emergency Telephone Number:	CHEMTREC: 1800-424-9300		
	Pinnacle Polymers: 985-535-298	3	
Section 2: Hazard Identification	n		
Classification of substance or mix	ture		
Classification (GHS – US)	Combustible Dust		
Label Elements			
Signal Word (GHS – US)	Warning		
Hazard Statements (GHS – US)	May form combustible dust co	ncentration is air during processing and handling.	
Precautionary Statements	1		
Prevention:	Not Applicable		
Response: Storage:	Not Applicable Not Applicable		
Disposal:	Not Applicable		
Additional Label Elements	This production contains no substances subject to the reporting or planning requiremen of SARA Title III.		
	Dust can irritate eyes.		
	Pellets may present a slipping hazard.		
	Melted polymer may stick to skin creating burns.		
	Static charges and discharges may be produced during product transfer.		
	Base polymer contains the elements hydrogen and carbon.		
Section 3: Composition/ inform			
Substance/ Mixture:			
Common Name and Synonyms:	Polymer Polypropylene Random Copolymer Product Series 5000, 6000 & 7000		
CAS Number:	9010-79-1		
Product Code:	5000, 6000, & 7000		
Ingredient Name	%	CAS Number	
	e >99	9010 - 79 - 1	
Propene, polymer with ethylene

Section 4: Fir	st Aid Measure	5	
	necessary first a		
Inhalation:		ive inhalation of fumes move person to fresh air. Get medical attention if symptoms continue.	
Skin Contact:	If material is molten, do not pull molten polymer from skin. Cool with water. Get medical attention if burn is severe.		
Eye Contact:	If material is molten cool with water and get medical attention. If material is dust rinse with water and get medical attention if symptoms persist.		
Ingestion:		from mouth. Rinse mouth with water.	
Most importa	nt symptoms and	l effects, both acute and delayed	
Inhalation:	Nuisance dusts can be irritating to the upper respiratory tract. Irritating fume may form when the material is heated. Contact with hot or molten material may cause thermal burns to the skin.		
Skin Contact:			
Eye Contact:	Dust from processing may cause irritation to the eyes. Contact to the eyes with molten material may cause thermal burns.		
Ingestion:	Swallowed mate hazard.	rial should pose no hazard, but get medical attention if symptoms occur. May be a choking	
	ny immediate mormation available	edical attention and special treatment needed e.	
Section 5: Fir	efighting Measu	ures	
Extinguishing			
Suitable extingu		Dry chemical extinguisher, carbon dioxide extinguisher, water spray/ mist	
	nguishing media:	Do not use solid stream or jet. May cause fire to spread.	
	is arising from the		
Fire hazard:		May be combustible at high temperatures. May form combustible dust concentration in air.	
Explosion hazar		Dust explosion hazard. Airborne dust that is exposed to an ignition source may burn in open areas or explode in confined spaces.	
Hazardous deco in case of fire:	omposition produc	ts Release of carbon dioxide, carbon monoxide, and hydrocarbons.	
Advice for fire	fighters		
Firefighting inst	ructions:	Remove all nonessential personnel from area. Do no use high pressure stream/ jet to extinguish fire. Be careful not to raise flammable dust during firefighting measures.	
Protection durin		Self – contained breathing apparatus and protective firefighting clothing (bunker gear) should be worn if fighting the fire at a close proximity.	
Other informati		Hot material may reignite, keep material wet until cooled.	
Section 6: Ac	cidental Release	e Measures	
Personal preca	autions, protectiv	ve equipment and emergency procedures	
For non – emer	gency personnel:	Spilled material may create a slipping hazard. Remove material from walking/ working surfaces immediately.	
For emergency		Protective clothing may be necessary in certain incidents – see Section 8 for further information	
Environmental p		Recycle if possible. Do not dispose of this material into the environment. Do not allow material to enter public waterways.	
	materials for con	tainment and clean up	
Small Spill:		Vacuum, sweep and shovel material into suitable containers. Recycle or dispose of in accordance with local, state and federal laws.	
Large Spill:		Prevent spread of material. Vacuum, sweep and shovel material into suitable containers. Recycle or dispose of in accordance with local, state and federal laws. Inform local authorizes of any spread into sewage or open bodies of water. Avoid creating large amounts of dust in confined areas.	

Date of Issue: July 2015

Revision: 0

Section 7: Handling and Storage		
Precautions for safe handling		
Protective Measures:	Maintain good housekeeping. Avoid spills and potential slipping hazards caused by pellets. Employees may be exposed to engulfment hazards when handling bulk materials. Do not store material near flammable substances. Provide adequate ventilation and dust control measures. Ground and bond transfer equipment and storage containers to dissipate static charges.	
	Do not breathe gas, fumes, or vapors from this product. Wear protective clothing when handling hot or molten material.	
Hygiene Measures:	Do not eat, drink or smoke while handling material. Wash hands and face after handling material.	
Conditions for safe storage, including any incompatibilities	Avoid storing material near flammable materials. Keep away from strong oxide agents. Store in clean dry areas away from direct sunlight. Ground/ bond containers and transfer equipment.	

## Section 8: Exposure controls/personal protection **Occupational exposure limits** Ingredient Name **Exposure Limits** Polypropylene (PP) Resin/ Pellets ACGIH TLV (United States). Particulates Not Otherwise Specified TWA: 10 mg/m<sup>3</sup> 8 hours. Form: Inhalable Particulates Not Otherwise Specified TWA: 3 mg/m<sup>3</sup> 8 hours. Form: Respirable fraction **OSHA PEL (United States).** Particulates Not Otherwise Specified TWA: 5 mg/m<sup>3</sup> 8 hours. Form: Respirable fraction Particulates Not Otherwise Specified TWA: 15 mg/m<sup>3</sup> 8 hours. Form: Total **Exposure Controls** Appropriate engineering controls Work area should have adequate ventilation. If dust generation occurs during processing, local ventilation should be provided to prevent exposure. Ventilation of dust must comply with local, state and federal regulation. **Environmental exposure controls** Individual protection measures Hand protection Use proper hand protection when handling hot or molten material to prevent thermal burns.

Eye/ face protection	Safety glasses. Face shield may be need when handling hot or molten material to prevent
	thermal burns.
Skin and body protection	Wear proper protective clothing.
<b>Respiratory Protection</b>	Respiratory protection may be needed when handling material in areas that do not have
	adequate ventilation, or if vapors or fumes are present.

## **Section 9: Physical and Chemical Properties**

Date of Issue: July 2015	Revision: 0
Lower and up flammability or explosive limit	No data available
Flammability (solid, gas)	No data available
Evaporation Rate	No data available
Flash Point	No data available
Boiling Point	No data available
Melting Point	144° C to 155° C
ρH	No data available
Odor Threshold	No data available
Odor	Odorless
Color	Translucent, opaque, or white
Appearance	Pellets/Resin
Physical State	Solid
Information on basic physical and chemical	properties

	No data available
Vapor pressure	No data available
Vapor density Relative density	No data available
Solubility	Insoluble in water
Partition coefficient: n-octanol/water	Insoluble in water and octanol
Auto ignition temperature	> 340° C
Decomposition temperature	>300° C
Possibility of hazardous reactions	No data available
Conditions to Avoid	Strong Oxidizing agents
Incompatible materials	Strong Oxidizing agents
Hazardous decomposition products	No data available
Section 10: Stability and Reactivity	
Reactivity N	Io data available related to reactivity for this product or its ingredients
Chemical stability T	he product is stable
	lazardous reactions will not occur under normal operating and storage conditions.
	oust may form explosive mixture in air.
	woid dust formation/accumulation. Dust can cause eye irritation and explosive
	nixture in air. Avoid buildup of static charges. Heat, open flames, sparks and direct
	unlight. Vapors or fumes can cause respiratory tract irritation.
	trong Oxidizing agents
	lazardous decomposition products formed under fire conditions: carbon monoxide,
c Section 11:Toxicological Information	arbon dioxide, toxic fumes.
Information on the likely routes Oral, D	
of exposure	
Acute Toxicity Not cla	ssified
	re to dusts may cause eye irritation
	ire to dusts, fumes or vapors may cause respiratory tract irritation.
	wn effects or hazards
	ssifiable as to its carcinogenicity to humans
-	
	ssined
(single/repeat)	
Aspiration hazard Not cla	issified
Section 12: Ecological Information Ecotoxicity Wildlife, G	especially small fish may digest pellets. Pellets are not toxic, but may block the
	tract and cause starvation or death.
	y non-degradable. Degrades under long term exposure to sunlight and/or heat
	n to be bio-accumulative
Mobility in soil Low mobi	
	significant effects or hazards
Section 13: Disposal considerations	
	duct does not meet the RCRA criteria of a hazardous waste. Product can be
recycled.	
	n accordance with local, state, and federal regulations.
Section 14: Transport information	naccondunce with local, state, and reachan regulations.
UN Number	Not regulated
UN Proper shipping name	Not regulated
Transport Hazard class(es)	Not regulated
,	Not regulated
Packing group, if applicable	
Packing group, if applicable Marine pollutant (Yes/No)	No

Polypropylene Resin/Pellets		
Special precautions which a use	er needs to be aware of No	
or needs to comply with in con		
or conveyance either within or o		
Section 15: Regulatory Info	ormation	
U.S. Federal Regulations		
TSCA	All components of this product are listed or exempted from the United States Environmental Protection Agency Toxic Substances Control Act inventory.	
SARA 302/304	No products were found	
SARA 311/312	Fire Hazard	
SARA 313	This product contains no exceedance of chemical concentration that are subject to the reporting requirements of section 313 of Title III of the Superfund Amendments and Reauthorization Act of 1986 and 40 CFR Part 372.	
California Proposition 65	This product complies with California Proposition 65	
Canada	All components of this product are listed or exempted from DSL (Domestic Substances List)	
Europe	Not Known to contain substances of very high concern (SVHC). ROHS Compliant.	
Section 16: Other Informa	tion	
HMIS III Rating         Health       :       0         Flammability       :       1         Physical Hazard       :       0         Personal Protection       :       See sect         Health       :       See sect         Health       :       See sect         Health       :       Physical hazards         National Fire Protection Associal       Section Associal

US OSHA LABEL as specified under 29 CFR §1910.1200 (f) Polypropylene Copolymer/ Random Pinnacle Polymers, LLC PO Drawer E Garyville, LA 70051 USA Tel. 985-535-2000 or 985-535-1016

Warning If small particles are generated during further processing, handling or by other means, may form combustible dust concentrations in air. Supplemental Information: Based on conditions common to industrial workplace use of this product Do not store near flammable substances. Bond/ ground transfer equipment to prevent static buildup. Spilled pellets may create a slipping hazard. Sweep up spillage and dispose of properly. Skin or eye contact with hot polymer can cause thermal burns. Processing the polymer at high temperatures may form vapors that irritate the eyes and respiratory tract.

The information contained herein is accurate to the best of our knowledge. Pinnacle Polymers makes no warranty of any kind, express or implied, concerning the safe use of this material in your process or in combination with other substances.
